CUSTOM HOMES, INC.
Quality Homes • Custom Kitchens • Beautiful Hardwoods

A HOME BUILDER YOU CAN TRUST

With so many home builders out there, it's sometimes difficult to choose a home builder you can trust. Our stunningly beautiful and highly innovative homes easily demonstrate that KNL is the obvious choice. KNL is clearly set apart from a long line of competitors stuck in tradition. We blend traditional craftsmanship with modern, groundbreaking lifestyle designs, to create exceptionally unique dream homes.

INSPIRED, DESIGNED AND BUILT
ENTIRELY AROUND YOU.
THAT'S A KNL HOME.

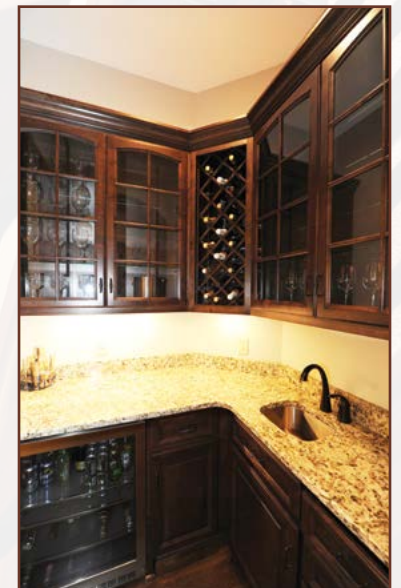

KNL principals have over 30 years of experience in homebuilding, we possess the knowledge and expertise to make your dream home a living reality. We build each house with quality construction, to your exact specifications.

LEADING WITH INNOVATION

We are deeply interested in understanding your needs. KNL builds homes that adapt to your changing needs – today, tomorrow, and in the future. We provide options that mesh seamlessly with your modern lifestyle – such as open, spacious floor plans, and flexible, integrated storage options.

CUSTOM CABINETRY

Custom hard-wood cabinets come standard with a KNL home. Select your wood (hickory, maple, oak) and door style. All cabinets have soft-close drawers & full extend drawer glides. If you want to add to the basic package, consider building multi-drawer cabinets, or a beautiful all-wood pantry.

INSPIRED, DESIGNED AND BUILT ENTIRELY AROUND YOU

BUILDING DREAMS

When the job is done, the work finished, the problems solved, sometimes it's good to take a brief overview. We researched our house design thoroughly as we researched contractors. From the time Vern began excavating "the hole", to the foundation, the framing and then all the multitude of facets of interior and exterior, we had confidence about the quality of the house you have built! We particularly want to commend your decision to appoint Sam as project manager to finish up our punch list. He did it in 2 ½ weeks which removed a lot of stress on our part. He is very focused, efficient and personable! We enjoyed a wonderful holiday in our new home and our family had numerous compliments on the designs and quality! At this time in our lives, Ann and I everyday soak up the beautiful workmanship inside and out. The warmth we feel living here is beyond words. We hope to thank your company in a get together here in warmer weather. • **B.W.**

Just wanted to say what a great experience it's been to work with KNL Custom Homes. From the ground up, you were there to make sure everything ran smoothly and we finished our showplace on time. The custom details are magnificent and we couldn't be happier. I would highly recommend KNL Custom Homes to the discerning customer who wants more than just the standard home. • **R.K.**

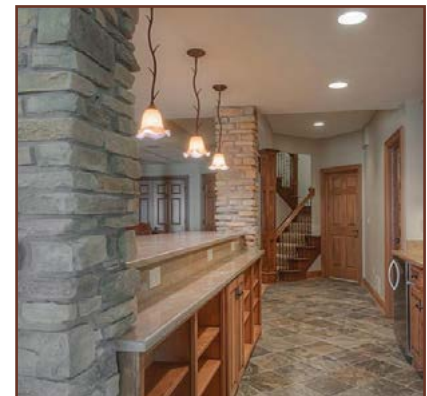

We used Todd and KNL to renovate a home we purchased that needed A LOT of cosmetic work. After meeting Todd, I could tell he was different; he seemed genuine and authentic, not just there to make a buck. Todd and Ken always went above and beyond to push the contractors to get the various work done. They were always accessible and responsive and their craftsmanship is unparalleled. The house is head and shoulders nicer than when it was originally built 10 years ago - it needed - and got - the "KNL Touch." We are incredibly pleased and happy with the work and will recommend anyone wanting to build a quality, custom made home to KNL Custom Homes. Thank you Todd and Ken!!!! • **B.K.**

Our experience with KNL was truly enjoyable! From start to finish, the customer service provided was exceptional. Everyone at KNL was so accommodating and accessible to us throughout the building of our beautiful home. It is a lengthy process and KNL was with us every step of the way! We couldn't be more pleased with the way KNL treated us and how responsible they have been to all of our needs. We want to express our sincere gratitude and should we build again, KNL would definitely be our builder! • **James Y. Richfield, Ohio**

KNL Custom Homes built a house for me and my family about 2 years ago. We love our home!!! The quality and craftsmanship in this home is unmatched in this industry. KNL returns when we call with any issue or question we may have. I would build another home with Todd and his crew tomorrow!!! The level of detail is unmatched. • **John P. Cleveland**

Have used KNL on two houses and an office remodel. Todd is extremely professional and goes above and beyond the call of duty. Their craftsmanship is excellent and above reproach. I would highly recommend KNL for any building project. The workers were friendly and trustworthy. If I build another home, KNL will be my contractor. • **Paul W. Medina**

This was the best experience in my life, frankly. I have worked with this company and this builder on several projects over several years and found both to be exemplary. The quality of construction is like no other I've seen. I could highly recommend both. • **Rick S. Akron**
